There or toner mines out of Monterey I stopped at an ample sized house on the right (west) side of the road and asked if I could get dinner there. A fine, motherly middle-aged women, when satisfied I was not a peddler sait, "Yes, indeed," it I would wait. I walked. In a few minutes a square shouldered, blue-eyed, let was a son of the lady, Charles K. Gibson, by name. "That's quite a trick," he said of the pack and its outfit—an expression. I soon became familiar with down Jacksons River, which I now was following. Less than a week previous to my coming he had killed one of the bornze fellows and seven pheasants in a day's hunt. "They're pretty thick," he said of the birds. WHAT IS Cash Bargain House

It is the offspring of a small business started at Edray is a house 14x20. Now it is considered the largest building in the county, full of bargains for each buyers.

Here are a few words from a customer who bought the Watsontown shoe and s prominent citizen of this community.

Mr Peter McCarty says that the bought a pair of Watsontown shoes a year and a few days ago for \$3.50. He wore them ever since and is still wearing them. The shoes don't leak a drop, but if you want the Cutter shoe I will furnish you the genuine with A. A. Cutter's name on them and stamped No 1. It is the policy of this store to have the real thing.

There was a lively conversation between two ladies. One said she didn't think the Venitian cloth which Golden offers for 38 cents could be good, and that it was impossible to sell a first class article for the price. Mrs R. who overleard the conversation told them that she was wearing a skirt from the same goods and it looked like it had been reduced from 50 cents. You will appreciate the bargains

WHAT IS Cash Bargain House

It is the offspring of a small business started at Edray in a house 14x20. Now it is considered the largest building in the county, full of bargains for each buyers.

Here are a few words from a customer who bought the Watson town shoe and r prominent citizen of this commentity.

Mr Peter McCarty says that he bought a pair of Watsontown shoes a year and a few days ago for \$5.50. He were them ever since and is still wearing them. The shoes don't leak a drop, but you want the Catter shoe I will furnish you the genuine with A. A. Cutter's name on them and stamped No. I. It is the policy of this store to have the real thing.

There was a lively conversation between two ladies. One said she didn't think the Ventian cloth which Golden offers for 38 cents could be good, and that it was impossible to sell a first class article for the price. Mrs R. who overheard the conversation told them that she was wearing a skirt from the same goods and it looked like the cents as it had been reduced from 50 cents. You will appreciate the bargains They are 25 per cent less than former price as I am in need of money to go

The race for the circulars were coming out housely. They went by the name of "orac backs" and were in great demand, by the reading public. The circulars swereto he seen in the hands of the voters on election day, and no doubt played a part in turning the tide. While this mode of electionering in one in Pocahontas County, it is used extensively everywhere the and has always proved eye efficient. Reply to "Lawyer's" Article in the Pocahontas

To the Voters of Pocahontas

To the Voters of Pocahontas:

1 noticed in last issue of the "Pocahontas. Tiposals," I noticed in last issue of the "Pocahontas. Tiposals, and the encumbent of that office and consequently so well acquainted with the workings of the same.

Not asyling a word that will detreat from Mr. Browns good repute, for we all agree that he is a gentleman almost above represely, and suppose he is throughly acquainted with the workings of the office to which he aspires for re-election, still we believe that "Lawyer" in his extremely well written article, argues from false premises. He states in substance that he believes in the rotation of some offices, but not in the office of County Clerk. Now the various Legislatures, throughten contents and laws, have in past years reduced the County Clerk a office and its keeping to a selence. He had not been appeared books and boxes, and in especially prepared books and boxes, and in especially prepared books and boxes, and in especially prepared places. If the office in question has been properly kept during the twelve years of Mr. Brown's encumbency, there should be but little trouble for his seccessor, if he is a man of even ordinary intelligence, to be able to locate and care for any record or paper pertaining to the office in an extremely short time. Of course there are some small thing, such as being able to wait upon the patrons of the office, hat must be learned by a new man upon his election, but this should be easily acquired. Beyond this, as I said, the office is so surrounded by express laws and regulations that the average man can care for it. The records are there to show for themselves. The clerk is not a part of the reduced of the delice, but only the custodian of the same.

It is to be presumed that the wise legislators who created the office of County Clerk, and the wise legislators who created the office of uning good behavior. The County of Pocahontas was created by the legitlators of Virginia hand, nor have the draft of the office of changing lands, nor have the p

sets were put in Jeography on a scenar or this sense changing hands, nor have the past encumbents held the position for life and reared their children to succeed them.

We are living in a Republic, and the most prosperons and successaful Republic the world has ever known. One of the chief causes of our phenomenal success has been the electric power placed by our Constitution in the launds of the people, and, in exercising this power, relation in office for all electric offices has become an ingrain principle of our institutions. It is one of the most important safegarant of the Republic. Should we allow one man to hold an office forever there is not only substitution of the control of th

property interests of the millions of inhabitants of the Republic.

In conclusion allow me to say there are before you are candidates for County Clerk two gentlemen: Mr S. L. Brown, the present excumbent, who is a man of most estimably parts, but who has held the office for I or most estimably parts, but who has held the office of I or most estimably parts, but who has held the office of I or most in the present in the present in the present of the present in the Democratic party in the county without over asking a reward. Mr Brown has under as edificient clerk. I assure you that Mr Blott, it clercial, will make an afficient and accommodating one. Mr Brown has held the office long—Mr Holl the ablowed long and hadden on office. I most assurably think that Mr Holt is sufficient to the consideration of the votwer of the county.

In addition to this ballot, my opponent, Mr E. I. Hall, has eigenfated through this country another ballot, copying exactly, in type, paper and size, the official ballot, having thereon all the names of the cardidates except my own.

The rules being laid down by a committee of which he is chairman, he is either acting ignorantly or treach croundy in flooding the country with a spurious ballot.

The result of his action will be that he will either deceive his own friends and have their ballots rejected or that he will cause my friends to scratch his name and write my own and vote a ballot that cannot be counted.

and write my wear and to consider the countries.

I think it strange in a man bolding the position Mr. Hold occupies as Chairman of the Democratic Excessive Committee, to write the best better will be retarmed, and who presided and assisted when the rutes for bolding of this princay shall be recommended. I leave it to the voters to say what his colpied was in this matter.

In circulating this relation was in this matter.

In circulating this relation to the very day that I only ask a fair election and not one which is calculated to breed trouble in the Democratic party by laving contests over votes rejected.

S. L. BROWN,

TO THE VOTERS OF POCAH NTAS COUNTY:

TO THE VOTERS OF POCAH NTAS COUNTY:

R was vials considerable astonishment that I read late last night the little poster that Mr Brown is having circulated, in reference to the Julius Link Lord Lead by the post for pity. I have attempted throughout the eampaign to treat Mr Brown with the utmost fairness and have said many things in his favor. Have always epoken of him to the most gentlemanty way, as my friends and his will teatify. It has been the custom in primaries held heretofore in this county or candidates to have printed and use semograpt their friends as many extra ballots as they deemed fit and useful in their cunvass. This inne when I had my ballets printed, I thought I was merely activitism my rights, and doing what I thought was perfectly legiti materized—my very openness about the matter shows that I was not rying to act treacherously, as Mr Brown accuses me. If I had over solved the article in the call for the primary which any that this hairman and secretary shall prepare the only ballot vated, I did it as my man naturally would who has had a great deal to do with pri naries heretofore, and the order is a very radical departars from their orders in the call for former primaries. But if there is any naves in the call for former primaries. But if there is any assention about the logality of any ballot that has been sent out, I assen you I do not want one seed, and ask all my friends who may happen to have them in their possession to destroy thou, and see only the ballots containing the names of all the candidates. This I have always the three the waste of Mr Brown with the utmour transparent to the contine canvass treated Mr Brown with the utmour transparent to the contine canvass treated Mr Brown with the utmour transparence and the candidates. This I have a should be a sea of the candidates. This I have a should be a sea of the candidates. This I have a should be a sea of the candidates. This I have a should be a sea of the candidates. This I have a should be a sea to the contine canvass treated M

'riends.''
Why has Mr Brown become so solicitous about me? No, gentle"nen, it is a clear attempt to injure me, and Mr Brown knows it. He
nows as well as any uma living that I would not, intentionally, send
ut a bellot that was not legal. I showed and gave my ballots to
Mr Brown's friends. Would it not have been fairer to call my atention to the error then, than have waited until the eve of the elecion almost, and by silence and secrecy got out a poster that was
neant to do me harm. The reason is obvious, and I ask my friends
o refote and repudiate every unjust charge be has made.

ALLEGHANY COLLE- THE

There are certain facts about the Alleghany Collegiate Institute that we wish every reader of the Pouhontar Times to know.

1. It is now under the control of the Methodist Cluurch. The school is distinctly Christian, but free from sectarianism.

2. The course of instruction is thorough and as complete as a school of like grade can be made. A large per cent of the Academic students go to college and the University.

4. The expenses are as low as first class accommodations will persist them to be.
